Program Advisement Checklist

**Student to initial beside each.**
I Have Been Advised of the Following Policies:

- All students must have a GPA of at least 3.0 on all required core classes.
- GPA at time of advisement _______
- GPA less than 3.0 and 30+ credit hours must make an appointment to see Ms. Katrina Embrey.
- Students address and phone numbers are correct on SHIP.
- Students applying for admission to the pre-licensure Baccalaureate Nursing Program must have completed Area F science courses within 10 years of admission to the nursing program.
- All applicants must take the Test of Essential Academic Skills (TEAS) and score at the proficient level or higher. Scores will be considered in the admission process. Information regarding the date and content of this test is available in the Department of Nursing office.
- Pre-Licensure students: A grade of C or higher is required for all Area A, D, and F courses. Repeating any course in Areas A, D, and F in order to achieve a passing grade (at least a C) reduces the chance for admission to nursing. Repeating more than one course in each area (Area A, D, and F) to earn a passing grade (at least a C) makes the student ineligible for admission to nursing. Repeating a course more than once in area A, D, or F to earn a passing grade (at least a C) makes the student ineligible for admission to nursing. Meeting minimum requirements does not guarantee admission to the nursing major.
- Pre-Licensure students: At least 54 hours of core courses must be completed prior to admission. All core must be completed before beginning the senior year of nursing courses.
- Pre-nursing students with 90 or more credit hours will not be eligible for federal financial aid.
- Students with “Conditional Admission” must bring proof of meeting the requirements to the Department Secretary before the beginning of the admission semester. Failure to do so will result in removal from the admitted list.
- Post-Baccalaureate Students: Must have a GPA of at least 3.0 on required courses in area D (statistics) and area F (Human Anatomy & Physiology I & II with labs, Microorganisms with Diseases with lab, Introduction to Psychology, and Human Growth and Development) in order to be eligible to apply for admission.
- Application acceptance dates can be found in the AASU catalog, and on the Department of Nursing website at www.nursing.armstrong.edu.
- Application for Armstrong Advantage is available for students enrolled at Armstrong Atlantic State University who meet the following: Completion of Areas A & D courses with no repeated attempts, GPA of at least 3.0 on core courses required for nursing major, and completion of the Test of Essential Academic Skills (TEAS) with a minimum score at the proficient level. Additionally, to remain an Advantage student, all core courses Areas A-F must be completed at Armstrong Atlantic State University with a minimum grade of C and no failures and no repeats.
